

Living in the Anthropocene

Analysis, Critique, Action

Introduction

7 September 2026

Laura Horn (lhorn@ruc.dk)

Plan for today

- The Anthropocene as a contested concept
- Why this course? Let's hear from the students – Freja Engelbrekt

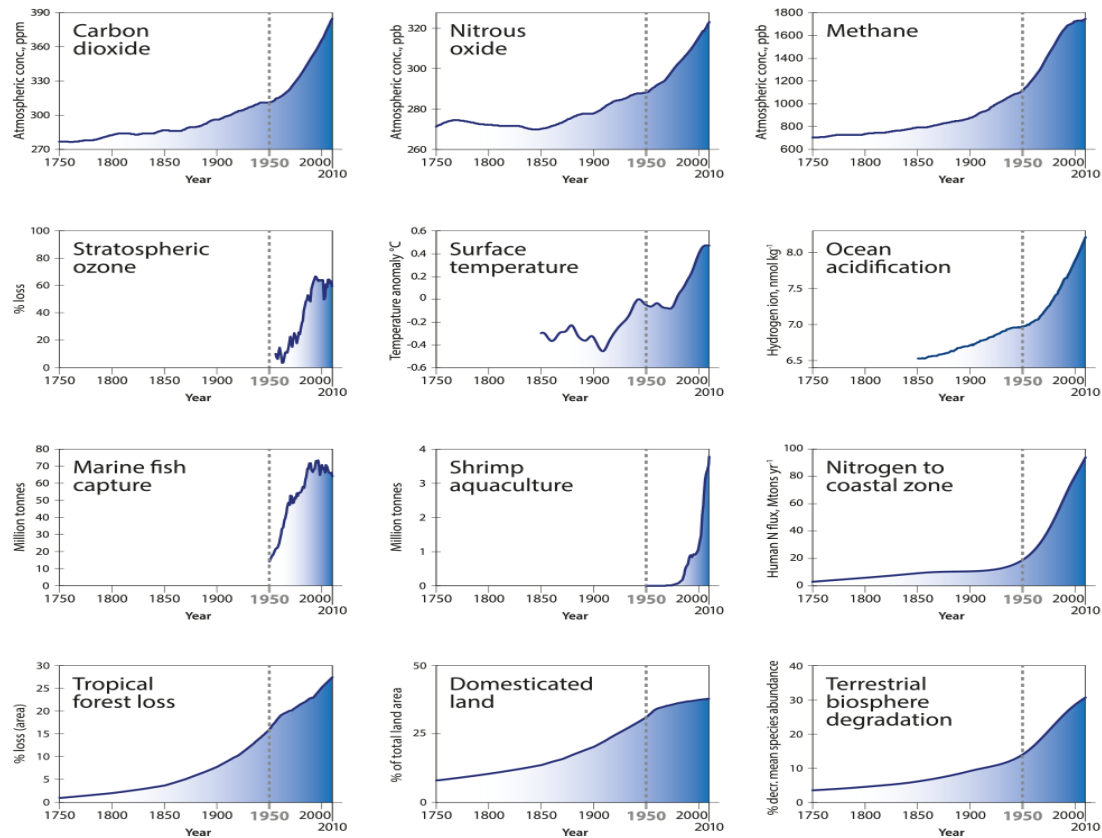

Break

- Discussion
- Course householding

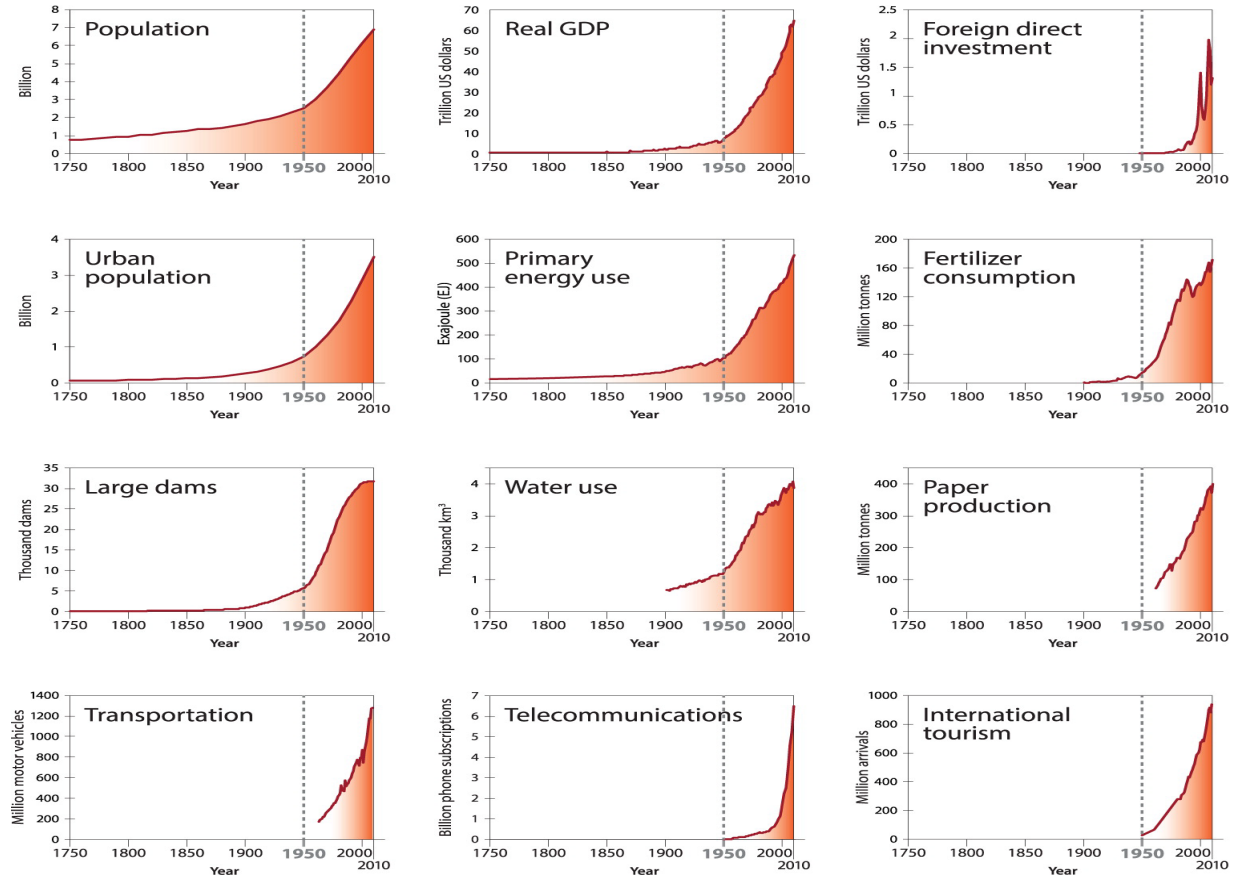

The Great Acceleration (Steffen et al 2015)

Earth system trends

Socio-economic trends

v2026/06

LIVING IN THE ANTHROPOCENE

Whatever you study, you study it in the Anthropocene!

Join us in this open, interdisciplinary seminar series with 10 sessions

7/9

Introduction

What is the Anthropocene, and what do we make of it?

14/9

Listen to the (climate) science!

Of Boundaries and Tipping Points

21/9

The Biodiversity Crisis

Earth System Science and Planetary Boundaries

12/10

Climate psychology

From value-action gap to ecological co-development

28/9

Beyond Growth?

Capitalism and the Limits of the Green Transition

5/10

Climate Politics

and the Geopolitics of Transition

19/10

Life-making

in the Anthropocene

26/10

Communication

in the Anthropocene

2/11

Beyond the Tragedy

The Commons Game

9/11

End of course workshop

Learning and teaching in the Anthropocene

When

On Mondays
14:00 - 16:00

Where

Auditorium 46.1

All students are welcome

No registration necessary
Snacks and drinks included!

Follow for more

RUC

The Pilot Project

Context: **Grønne Samtaler** / Green Conversations process

Each session open to anyone who might be interested!

Connect on IG – we also welcome students who would like to contribute!

We'll set up an infrastructure to share readings and slides...

Concluding workshop on 9/11 – **Anthropocene Pedagogy**

Let's hear from Freja!

Break

The teaching team – across all four RUC institutes

Pernille Almlund (IKH)

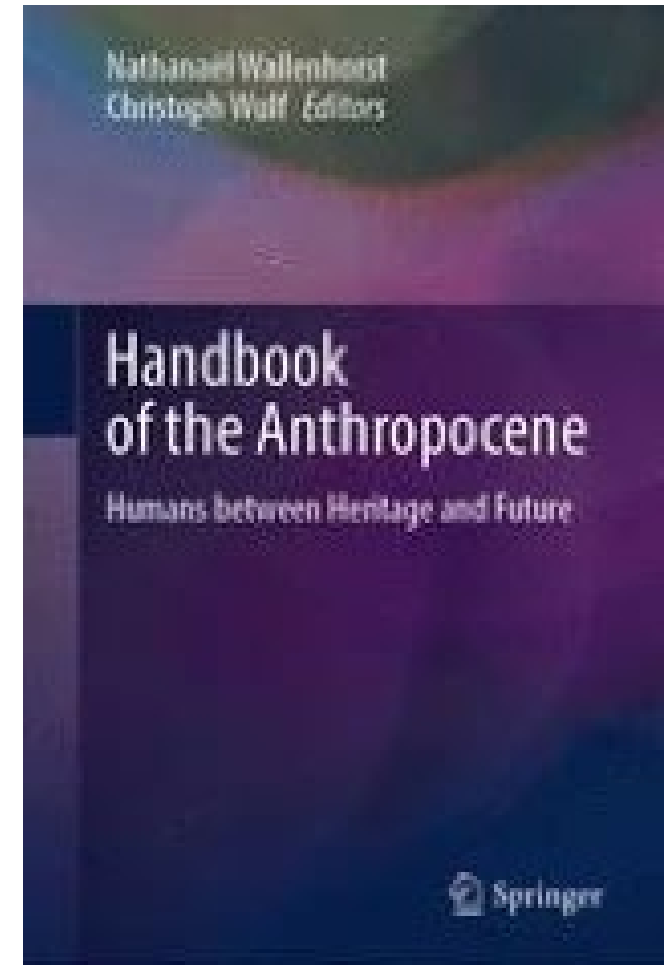

John Shorter (INM)

Niklas Chimirri (IMT)

Laura Horn (ISE)

Course literature

- *The Handbook of the Anthropocene* (2023) as background literature
- Specific readings for each session – required/recommended
- There is so much more to read! Feel free to bring books, papers, novels, recommendation to the sessions

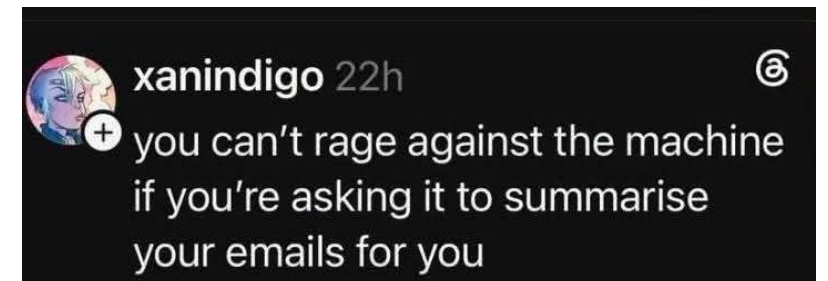

Course examination (5ECTS)

7 days individual written take-home assignment (12,000-16,800 characters, including spaces)

18-25 January 2027 (reexam 15-22 February)

The instructions will be set by the teaching team: analysis, critique, reflection, engagement with the course literature

The (burning hot boiling) red thread through the course

Focus: What is the problem/challenge, according to this perspective/discipline(s)? What is left out?

Agency: Who caused this, who can do something about this, what is stopping them, what would it take?

Ways of knowing: How do we know? Which concepts work for whom? Who counts, which knowledge is trusted? Whose voices are heard? How do we learn? What would change our minds?

Discuss – is there anything missing?
